

Roos Wind Farm Community Benefit Fund opens for applications

The Fund is open for applications from Tuesday 1st December 2015 until Thursday 31st March 2016. A panel made up of representatives from the area of benefit will then meet the week commencing 23rd May 2016 to consider applications.

Charitable and community organisations have a source of funding thanks to the successful completion of the Roos Wind Farm in East Holderness. Applications are now invited for the 2016 fund, which is the 3rd year of the funds.

RES, the British independent renewable energy company that developed the nine turbine wind farm, has established a Community Fund to provide £36,000 per year (index linked) to support local community projects during the lifetime of the wind farm.

Applications to the Fund are invited from groups and projects who can demonstrate that their activities benefit the communities living and working within 5km of Roos Post Office. This area includes the parishes of Burton Pidsea, Rimswell, Halsham and Roos.

Application forms and guidelines can be downloaded from the ERVAS website at www.ervas.org.uk or obtained by emailing judith@ervas.org.uk, or writing to: Roos Wind Farm Community Benefit Fund, ERVAS, Morley's Cottage, Morley's Yard, Beverley, Walkergate, HU17 9BY.
